

Jose Ramirez

Portfolio

My name is Jose Ramirez and I'm a senior at Akins High School. I enjoy using computer software. In the past few years I've learned how to use Photoshop, Flash, Maya and Unity. I've also learned how to use Magix. After high school I will attend Texas State University and major in animal science.

1. Maya Modeling

I used Maya and Polygon Primitives and free textures on the internet to create this temple for my first animation for this class. By using different modes and tools, I duplicated and resized objects to create this temple.

2.Maya Environment

I used the vertex mode to edit the textures on this island I created for my first animation.

3.Maya Composition

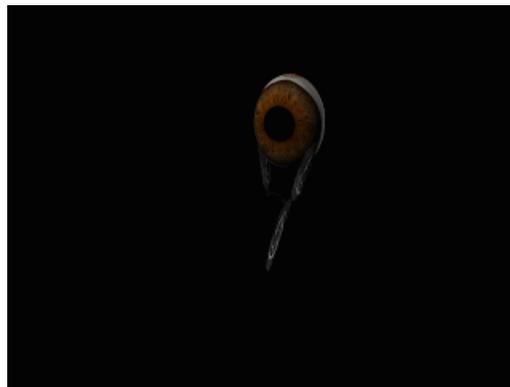

I composed my image by locating all the objects in my appealing way for my first animation background.

4.Maya Characters

I created and rigged this character in Maya.

5.Maya Animated Character

<https://youtu.be/JYbdITX8GKob>

I used Maya's animation menu to add movement on the timeline and rendered the video with Premiere. I used the 5 keys to add key frames after I set up the character using the Maya code box to create a button. This helped me select all the moving parts each time I added a key frame.

6. Magix Music Studio

<https://youtu.be/iz29FhAHLHU>

I used Magix to start making some music for my animations and other projects. I learned how to use the OGG loop and the editable TAK files.

7. Animation in Environment One

<https://youtu.be/GxSQN50oDt8>

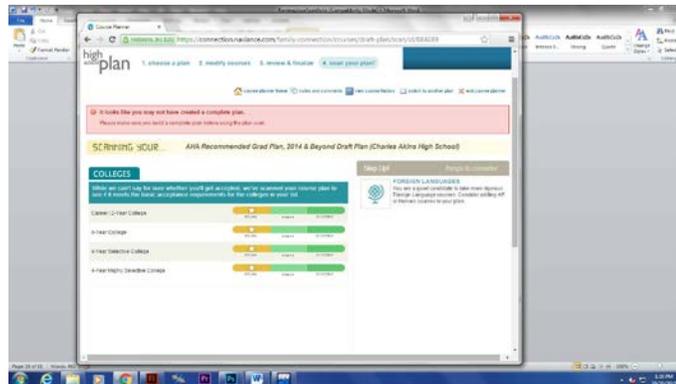

I used Maya, Premiere, and sound clips to create this short animation. I created the environment, the temple and the rigged character. The character had to have rig controls which were constrained so they wouldn't move around when I moved other parts of the character. I added some humor by making him break out of the temple.

8.Mudbox Human

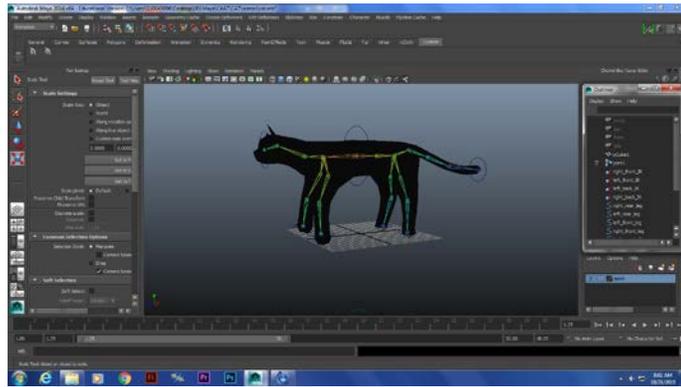

I went to Mudbox to create this human figure.

9.Naviance

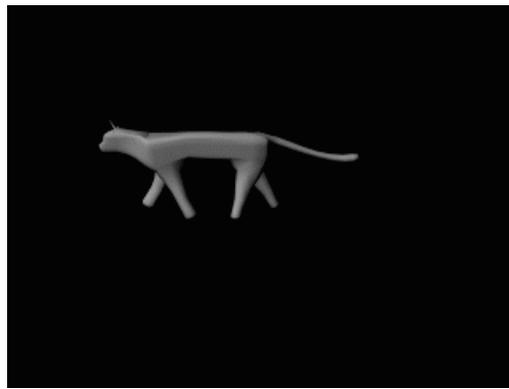

I made a record of the classes I'm taking now on Naviance.

10. Cat Modeling and Rigging in Maya

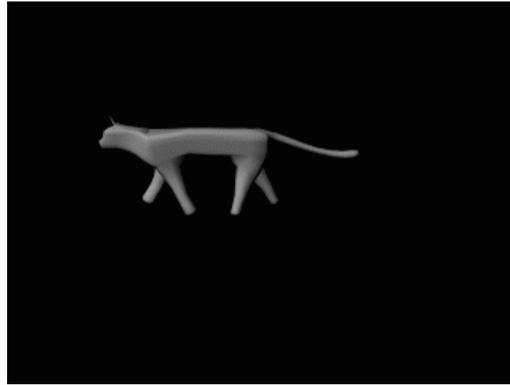

I used Maya to model this cat shape from polygon primitives.

11. Cat Still Walk

I created this GIF with 30 frames in Maya to practice a four legged walking cycle.

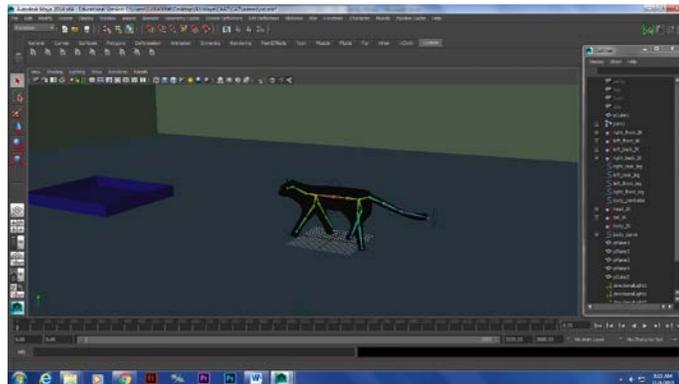

12.Cat Walk Video

<https://youtu.be/0IR9IQrpCAG>

I made this cat walk in Maya and exported it in Premiere.

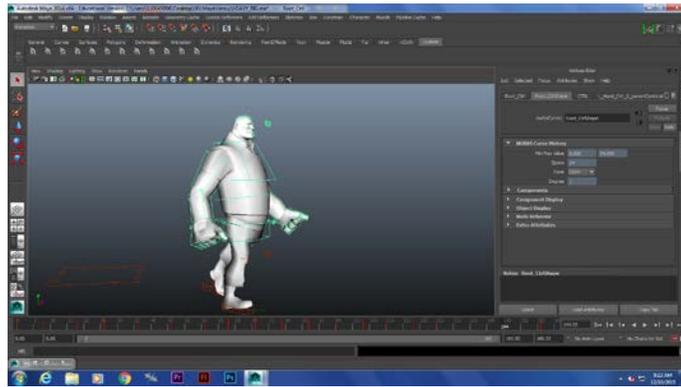

13.Cat Story

<https://youtu.be/QFRFvtX-3X4>

I used the rigging and controls after I smooth bound the modeled cat mesh to control this character in an environment I created. I had to create an all button to select everything that moved every time I moved and object for the 2000 frames.

14.Heavy Walk Animation

This is the dance I copied

<https://www.youtube.com/watch?v=UcDPwhJuvpU>

This is my animation of the dance.

https://youtu.be/9C7PZmfN_DU

I used a popular video game character I got off the internet which had been previously rigged and I followed video instructions that showed me how to make him have a natural walk. I also learned how to use the animation graph editor to make more smooth actions.

15.Game Sketch

I hand drew a steam punk warrior and scanned it, I used Photoshop to clean it up and colored it in Flash.

16.Heavy Song

https://youtu.be/41ZNhBa_zg0

I used Magix to create this song to go with my Heavy dance animation.

17.Demo Reel

https://youtu.be/Mr57mbWj_-I

I used Premiere to create a demo reel of every project I've done in this class.

18.Independent Animation Script

I used Word to write this script for my independent animation.

19.Independent Animation Storyboard

I used Photoshop to create this animation for my independent project.

20.Indie Project Characters

I created and rigged these characters for my independent project in Maya.

21.Indie Project Background

I designed this background for my project in Maya so I had a place to put my characters.

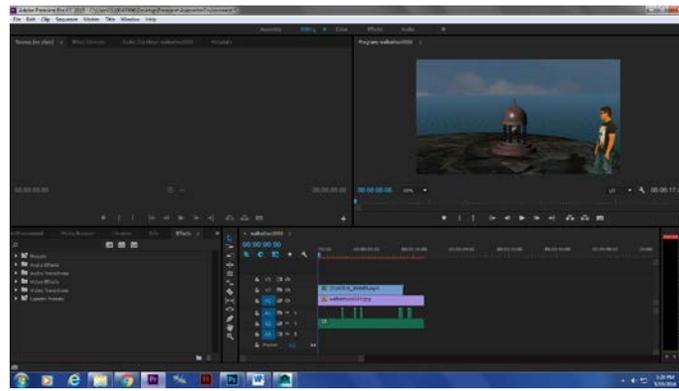

22.Independent Animation

<https://youtu.be/Wioqfc9mMWA>

I used Maya and Premiere to create this independent animation.

23. Green Screen

<https://youtu.be/4tqJaE7IMpY>

I filmed myself in front of a green screen and edited myself inside the environment we did at the beginning of the year.

24. Web Portfolio

<http://joseramirez598.wix.com/ramirezjose1stperiod>

I created an online portfolio for my projects at Wix.com.
