I'm Nicole Panesso and I live in Austin, TX. Some of my interests are photography and art. I enjoy seeing new places; I hope to travel around the world later on. I also enjoy watching movies. I currently go to Akins high school.

1. Background Lesson One

I used flash and two colors of blue in gradient to make the sky. I created complete shapes to make my mountains, hills, water, and clouds so I could fill them.

2. Characters Lesson Two

I did research to see what eagles and butterflies look like and made my version of them. The butterfly and the eagle are animated symbols that repeat so they can look like they are flying across.
