

JOHNATHAN

HANSEN

PORTFOLIO

I'm Johnathan Hansen. I'm a student at Akins. I like dubstep And video games. That's all I got.

1. Background Lesson One

I used Flash and a rectangle with two colors of blue in a gradient for the sky. I outlined the clouds and filled them. I had to create complete shapes to make my mountains hills and water so I could fill them.

2. Characters Lesson Two

I did research to see what butterflies and eagles look like and made up my own version of them. The butterfly and the eagle are animated symbols that repeat so they can look like they are flying across the stage.

3. Animation Lesson One

<https://youtu.be/FLDYCvLrutY>

I used key frames, motion tweens, animated symbols and a team created story to create this short animation. Each scene had to be set up separately and animated on the time line.

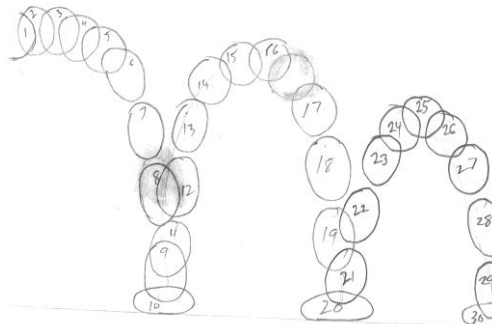

4. Magix Music Studio

<https://youtu.be/wwH67G8Sn7Y>

Use Magix to create music for my animations by creating my own instruments or using the loops provided by the software. (Linked one sucks)

5. Hand Drawn Animation One

https://www.youtube.com/watch?v=ya_eb8vEXzs

I used pencil and paper to draw all the circles in a sequence using timing and spacing to make it look like a ball is bouncing.
